Schoolwide Discipline and Student Support

Engaging Schools collaborates with district leaders, school administrators, and a school-based student support team to recalibrate discipline and student support systems in order to maximize every student's opportunity for success. With support from Engaging Schools, the student support team and school administrators lead a review and revision of schoolwide policies, protocols, and practices to align with the school's mission, values and core beliefs. As a result, administrators, teachers, and ancillary staff more effectively provide scaffolded academic and behavioral supports and interventions for all students, producing a reduction of unwanted behaviors and increased engagement in the classroom. Shifting Gears: Recalibrating Schoolwide Discipline and Student Support A Restorative and Accountable Approach for Middle and High Schools

By Carol Miller Lieber, Michele Tissière, and Nicole Frazier.
Foreword by Marian Wright Edelman of the Children’s Defense Fund.

Shifting Gears supports schools to develop a restorative, problem-solving approach to creating systems of discipline and student support. It is a valuable resource to help school leaders, climate-culture-discipline teams, and individuals including deans, student support directors, counselors, and other specialists within a district or school to guide their own professional learning and that of the school’s faculty as they develop and implement an effective approach to schoolwide discipline and student support.

Shifting Gears presents an overview of a systematic approach to schoolwide discipline and student support, looking at the current school discipline problem, the features of an effective schoolwide discipline and student support system, and the research and theory that underpin our approach. It then offers an examination of the “gears” that work together to create an effective system: School Vision; The Right Data; Essential Teams; Code of Character, Conduct and Support; Classroom Practices; Schoolwide Initiatives; Interventions and Case Management; and Families and Adult Allies as Partners. Chapters on each gear provide guidance, recommendations, and “how-to” information. *Shifting Gears* provides detailed protocols, training tools, examples, scripted agendas, checklists, readings, and interactive elements to support users to construct their own schoolwide discipline system.

Advisory Plus

Adolescents stand at a crucial intersection in their social, emotional and academic development, and they need coaching and support to navigate the complexities of school. Success in school, college, career, and life is a result of students having the capacity to set goals, manage tasks, organize and keep track of materials, work collaboratively with others, advocate for themselves, and communicate effectively. Supported by the planning, thoughtful implementation, and coaching that is a hallmark of Advisory Plus, teachers and other staff members are trained to serve as advisors and play a vital role in creating a personalized environment where all students are valued, cared for, and encouraged. Learn more at www.engagingschools.org.
